

## Prayer Focus – 05 - 11 September 2022

### South America East Territory

**Territorial leaders:** Colonels Philip and Sheila Davisson

**Prayer requests:**

- For the officers and their families, that they may be strengthened in their ministries and receive the power of God to continue the mission with passion and love.
- For evangelism among adults (women's ministries and men's groups), youth and children, that each group may be reached by the gospel and know the love of God.
- For the work in our communities, that we may have outstretched hands acting efficiently and effectively to bring justice in every opportunity we have before us.
- For the awakening of vocations in the young people of the territory and that they would accept God's call to become Officers.
- For the Territorial Review and the visit of International Secretaries Commissioners Hill in October. Also, for the visit of General and Commissioner Peddle to celebrate the Territorial Congress "Day by Day," which will be the first event in which the entire Salvationist community comes together after COVID restrictions and isolation. We hope that each of these two visits will be a powerful blessing for the life of the Territory.
