

## Prayer Focus – 07-13 August 2023 Ghana Territory

**Territorial Leaders:** Colonels Seth and Janet Appeateng

### **Prayer requests:**

- As we embark on the great commission, may God grant us the grace to make headway and gain grounds especially in the Muslim and Animist communities in Ghana.
- The leadership of the Territory has a lot and timely vision for the Territory, but we need the intervention of God the Holy Spirit and His enabling power.
- There is a need for our soldiery to admit and support the leadership initiative for Self-support right from the corps level to the territorial level.
- Pray for our officer community, both the active and retired for good health.
- We also need people to commit themselves and own the Army.
- Again, we need spiritual awakening, physical support, and financial support as well as mission partners for the growth and expansion of the Territory.
- There is a plan for Officers Councils in August this year, pray for travelling mercy to and from and again, for Officers to be transformed through this.
